

# **Albany International Airport Interim Capital Improvements, New Terminal Apron Mast Lighting, and Rental Car Lot Relocation Albany, New York**

*Owner:* Albany County Airport Authority

*Total Construction Cost:* \$9,000,000.00

Project design for Electrical work to provide area lighting for the Airport Apron Areas, including limited area lighting for adjacent parking lots and for areas where construction will take place; as well as the design for the removal of existing service and transformers feeding the existing terminal. Final design work included the apron lighting design for the complete apron, after full completion of the new terminal and the installation of a new dual high voltage underground service to feed permanent power to the new terminal.

Additionally, work included apron lighting consisting of 1000 watt metal halide lamps with high-mast poles and associated lighting controls.
