

**Corning Tower, Empire State Plaza  
Replace Secondary Network Protectors  
Albany, New York**

*Owner:* NYS Office of General Services

*Total Construction Cost:* \$1,250,000.00

Study and design for replacement of outdated secondary network protectors at prioritized and critical areas as directed by Client Agency. Project consisted of a very complex primary and secondary voltage distribution system which required special phasing to maintain power service for this large complex of buildings while the designed work is being installed. This project is part of an approved Consultant Term Contract Work Order with the New York State Office of General Services.
