

**Coxsackie Correctional Facility
Rehabilitate Kitchen
Coxsackie, New York**

Owner: NYS Department of Corrections

Total Construction Cost: \$200,000.00

For this project, Plumb Engineering, P.C. was responsible for the electrical work associated with the kitchen renovations.

The electric work was coordinated with architects, and mechanical and plumbing engineers at the NYS Office of General Services, Design & Construction Group.

Project scope included power distribution and connection to the existing mechanical and electrical systems. Extensive and careful investigation was needed to be able to properly interface with the existing systems serving the Coxsackie Facility and to not interrupt services during construction.

New Electrical Systems included lighting, new power distribution to all new and relocated kitchen equipment.
