

**John F. Buckley Plant
Boiler Replacement
Troy, NY**

Owner: City of Troy

Total Construction Cost:

\$263,400.00

Mechanical and electrical design and construction administration service were provided for the replacement of steam heating boilers in both the water treatment plant and the maintenance building. The oil fired boilers/burner units were replaced with combination gas/light oil units. A condensate return unit was also replaced in the maintenance building. The project also included asbestos removal from existing pipes and boilers.
