

**Rensselaer Amtrak
Intermodal Station Development
Rensselaer, New York**

Owner: Capital District Transportation Authority

Total Construction Cost:

Professional services for Mechanical, Electrical and Plumbing design associated with the construction of a new Railroad Terminal Building at the Amtrak Rensselaer Station. The first phase involves extensive programming and phasing plans in order to maintain the existing railroad facility's operation during the construction of a new Transportation Center and 800 Car Parking Garage. The programming includes future development at this site for possible Office Buildings, a Hotel, Senior Housing Apartments, and Municipal Buildings. The next phase will involve site electric power distribution design and complete design of systems for mechanical, electrical, plumbing and life safety design for the various buildings.

Construction Cost Phase I: \$5,000,000

Construction Cost Phase II: \$15,000,000
