

**SUNY College at Cortland
Rehabilitation of Hendrick Hall Building 15
Cortland, New York**

Owner: State University of New York Construction

Total Construction Cost: \$690,000.00

Complete mechanical, electrical and plumbing design and construction administration services for the rehabilitation of a four story dormitory for environmental improvements and code compliance. The mechanical work includes complete cleaning of exhaust ductwork, new fresh air source for mechanical room, replacement of roof top fans, replacement of condensate receiver pump and new trash room exhaust systems. The plumbing work consists of the relocation of domestic water heater, replacement of roof drain domes, raising and replacement of shower heads, replacing shower mixing valves with anti seal valves and other fixture additions and relocations. The electrical work consists of replacing lighting fixtures in bedrooms, corridors and lounges, rewiring stairwells for controlled switching of every floor level, card access security system, addressable fire alarm system, convenience outlets in bedrooms, and providing circuiting for new mechanical equipment.
