

## HOSPITAL SECURITY DESIGN SERVICES St. Joseph's Hospital

Owner: St. Joseph's Healthcare, Syracuse, NY  
Contact: Brian Benedict or Cathy Coryell, (315) 214-6800  
Budget: Ongoing  
Completed: 2007-Ongoing

### Key Design Elements:

- ◆ *Complete Hospital Security System Programming and Design*
- ◆ *Downtown Location*
- ◆ *IP-Based Systems*
- ◆ *CCTV*
- ◆ *Access Control*
- ◆ *Electronic Locking Systems*
- ◆ *Intercom Systems*
- ◆ *New Construction & Renovation Projects*

SYRACUSE, NY— Plumb Engineering has been contracted by St. Joseph's Hospital to provide important, ongoing security consultation services for its facilities.

Recently, Plumb designed security upgrades for Psychiatric Ward 3-6. The project, completed on time and on budget, includes state-of-the-art electronic locking and access control systems to protect patients, staff, and visitors.

The Syracuse City Council recently approved St. Joseph's plan for a substantial, \$200 million dollar expansion of its facilities. In addition to providing campus-wide security threat and risk analysis, Plumb will be instrumental in designing the security systems for St. Joseph's new emergency department and patient floors.
